They are deprived of political, social, economic, and health opportunities. Through this workshop, the Centre aspired to bring to fore the issues faced by the differently abled women in terms of the social space they can lay their claim on, the opportunities of life they can explore, basically their trials and tribulations. Media narratives have been consciously chosen as an integral part of this exercise, for such narratives have the potential, to mirror up to nature the social realities as they exist in our times. Narratives have the potential to emote, to make the right pitch, to strike the right cord and resonate with the experiential reality of the audience. Therefore, these narratives provide good learning. With this intent, the centre has forged collaboration with the Delhi based NGO – Brotherhood who conduct International Film Festivals on issues related with disability as a part of their awareness raising campaign.
